HOW Sustainability Education?

Monday April 27, 2009

A SOLUTIONS SUMMIT

We aim to build a cohesive movement for sustainability education in BC.
A one-day event to bring together BC's key stakeholders, decision makers and change agents in sustainability education to create focused teams of champions from around the province.

Teams will work together to design and contribute to collaborative action plans for sustainability education that will support BC's public institutions in reaching the Greenhouse Gas Reduction Targets of 2010. Follow up events throughout the summer and fall will support the momentum of the teams.

Why, What, and How: BC's Greenhouse Gas Reductions Targets Act (GGRTA)
- Collaborate and make plans for achieving GGRTA requirements
- BC's best practices for addressing GGRTA, climate change, & sustainability education
- Generate new creative solutions to collective problems

Sustaining Success
- Build capacity for BC's sustainability education movement
- Build relationships and strategic partnerships to ensure long term solutions
- Develop champions for sustainability education in BC

Roundhouse Community Arts & Recreation Centre, Vancouver
- Registration includes breakfast, lunch, dinner, snacks, networking
- Youth/Students $25
- General (individuals, businesses, organizations, government)—sliding scale of $50 to $150
- Check in & breakfast begins at 8 am
