## **We Continue to Take a Stand**

**Colleagues:**

As we begin our first full week of protests, I would like to tell you again how much I appreciate all that you are doing. Like all teachers in the province, you understand clearly why we are on the picket line. Classes that are too large, the lack of adequate resources for students, the inability to bargain for our working conditions, unmet needs of many students and our salary: these are just a few of the reasons why teachers are taking a stand. Now, please don't forget these two important events:

### **RALLY IN SUPPORT OF PUBLIC EDUCATION**
