## ADD/ADHD

*A teacher has to be a prophet  
who can look into the future  
and the world of tomorrow,  
into which the children of today  
must fit.*

The Vital Link

### Rationale:

- Learning assistance is a vital link in the child's learning...
- Learning assistance links pupils' learning and their potential
- Learning is continuous—intertwined, integrated
- Learning is interdependent, multidimensional...
- Learning assistance completes the missing link for many...
