2013–14 Canadian teacher salary rankings: Provinces and territories

Prepared by BCTF Research
Revised July 2014

The Canadian teacher salary comparison tables in this report show the minimum and maximum salaries for BC's Category 5 and Category 6, or equivalent, for provinces and territories. A sample of school districts is included for those provinces/territories with multiple collective agreements.

Category comparisons

Selection of equivalent categories for BC's Category 5 and Category 6 was done by comparing definitions and requirements for each category, by province or territory. The categories chosen as the most suitable matches are based on information on teacher certification qualifications available online for each province or territory.
