Mostly for Math:

3. Census at School - Canada!

www.censusatschool.ca

Census at School is an international classroom project for students aged 8 to 18. They complete a brief **online survey**, **analyze their class results** and **compare** themselves with students in Canada and other countries. Use the left menu bar to find instructions for **Teachers**, **Data and results** and **Learning activities**.

Mostly for History:

4. Canada Year Book Historical Collection

Discover Canada's history after Confederation, from 1867 to 1967, with **original historical text**, **photos**, **tables**, **charts** and **maps**, supplemented by interconnected **lesson plans** organized by topic. Welcome to a new way of looking at our past.
